PROFESSIONAL PROFILE

Full-Stack Developer (React · Node.js · Python) with 2+ years building production web applications and enterprise systems. Delivered LAN monitoring infrastructure for Sonatrach serving 100+ devices with 40% operational efficiency gain; built a RAG document platform for Algérie Télécom. Ranked 1st in Computer Science cohort — GPA 15.63/20 (Très Bien); IELTS Academic 6.5.

EXPERIENCE

Full-Stack Developer (Freelance)	May 2025 – Present Remote, Algeria
- Delivered 4+ production PWAs across education, recruitment, and media verticals for Algerian and remote clients, managing the full project lifecycle independently - Implemented JWT Authentication, Role-Based Access Control (RBAC), REST APIs, and responsive admin dashboards using React, Node.js, Supabase, and PostgreSQL. - Maintained production PWA deployments via GitHub Actions CI/CD pipelines and Vercel, ensuring reliable releases and consistent uptime.	
Software Engineering Intern	Apr 2026 – Jun 2026 Tebessa, Algeria
Algérie Télécom	
- Built a RAG-powered document analysis platform reducing average query response latency by ~50ms through semantic FAISS vector indexing (React, Node.js, Python) - Automated unstructured document chunking and vector embedding generation, eliminating manual indexing across enterprise document workflows - Designed a RESTful API layer connecting retrieval backends to the query interface, enabling context-aware document search across internal knowledge bases	
Software Engineering Intern	May 2025 – Jun 2025 Boumerdes, Algeria
Sonatrach	
- Built a real-time LAN monitoring system tracking 100+ network devices across Sonatrach infrastructure, reducing manual asset discovery time by 40% (Python, Node.js, React) - Engineered live dashboards visualizing packet activity, bandwidth utilization, and device health metrics — enabling proactive detection of network anomalies before outages - Delivered through structured QA testing and staged corporate deployment, following Sonatrach's engineering and security standards	

PROJECTS

Massar (2025 – Present) – Recruitment MVP PWA: job posting management, candidate tracking, admin dashboards. Link AlphaX (2025) – Educational PWA: course management, automated assessments. Link Apex News (2025) – Real-time news PWA: dynamic content management, mobile-first delivery. Link LAN Monitoring System (2024) - Built a real-time network tracking platform for Sonatrach serving 50+ devices and reducing manual asset discovery by 40%. Github Link Face Detection System (2023) – PyQt5, Python, OpenCV, React; >90% accuracy with live-stream monitor. Github

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, C, PHP Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS Backend & DB: Node.js, Express.js, FastAPI, Supabase, Firebase, MongoDB, MySQL, PostgreSQL AI & DevOps: RAG pipelines, LLM fine-tuning/prompting, Vector Databases, OpenCV, Docker, Git, GitHub Actions

EDUCATION

University of Guelma	Algeria
- B.S. in Computer Science GPA: 15.63/20 (Ranked 1st in Class) - Degree recognized in Germany: University listed as H+ in Anabin database - Languages: English: B2/C1 (IELTS 6.5), French: A2, Deutsch: A1 (learning), Arabic: native - Certifications: IELTS Academic (6.5 - B2), Major & 5 Stars Student Excellence Certificates - Work authorization: Non-EU citizen, require visa sponsorship (eligible for EU Blue Card)
